

Automatic Bottom Hemming Machine TS-8322

TS-8322

Advantages

- 1.It supports both inside-in and inside-out sewing by simply replacing the folder.
- 2.The standard folder fits widths from 9 to 30 mm, with optional special folders reaching up to 42 mm.
- 3.It features a pneumatic toggle-joint opening system for the guide.
- 4.The pneumatic system offers selectable manual or automatic modes for the operator.
- 5.It allows simultaneous foot lifting during the sewing process.
- 6.Electronic stitch length can be easily set via the panel for better flexibility and comfort.
- 7.It is designed to boost work efficiency while reducing operator fatigue during long shifts.

Specifications
