

Automatic Button Machine TS-150

TS-150

Advantages

- 1.It is suitable for metal snap buttons, plastic snap buttons and rivet buttons of various sizes, and works well with garments like down jackets, cotton-padded coats, jackets and outdoor jackets.
- 2.It features intuitive touch screen control for easy and quick operation.
- 3.It comes with an anti-hitter ring to protect operators from accidental injuries.
- 4.Its stainless steel body offers long-lasting durability and easy cleaning.
- 5.It integrates both punching and button-setting functions to improve production efficiency.
- 6.The servo motor drive ensures stable, high-speed and consistent performance.

Product Specifications:

Drive mode	Servo motor
Working throat depth	80mm
Working height	35mm
Working speed	45-60pc/min
