

Automatic Clothes Folding & Packing Machine TS-FPS-1

TS-FPS-1

Advantages

- 1.Space-Saving Design: Compact footprint, easy operation, and consistent, standardized folding results superior to manual work.
- 2.Dual Working Modes: Switchable between bagging and stacking (no bag) modes to meet diverse production needs.
- 3.Fully Adjustable Size:Both folding width and length are adjustable within a flexible range, compatible with various product specifications.
- 4.Efficient & Streamlined Workflow: Ensures a clean, organized, and highly efficient downstream packaging process.

Specifications

Model	TS-FPS-1
Folding mode	Semi-automatic, staking without bag
Stacking method	Drawer
Stacking speed	300~400pcs/h
Air pressure	0.6Mpa
Voltage	220V/50HZ
Power	0.7KW
Application	T-shirts, polo shirts, sweat shirts, pants,and thin coat, etc
