

Automatic Label Attaching Machine TS-2210-VC-LB

TS-2210-VC-LB

Advantages

- 1, High efficiency: This type of label attaching machine can attach 8-10pcs labels per minute.
- 2, To change the size of the label, simply adjust the template size. The machine reads the pattern and the computer of the feeding machine can be changed by adjusting the coordinates.
- 3, The automation level is high. Place the entire stack of labels into the feeding slot, and the mechanical hand will automatically insert the labels into the sewing area for sewing.
- 4, This machine has wide applicability. It is widely used in the sewing of labels for jeans, bags, clothing, outdoor products, etc.

Product Specifications:

Size Range of Leather Label	Max 90mm*70mm. Min40mm*25mm
Feeding Speed	0.5 seconds per piece
Sewing Speed	2700rpm
Power Supply and Power	Single phase 220V 750W
