

Automatic Pocket Flap Sewing Machine TS-586

TS-586

Advantages

1. It finishes one-step forming just by placing fabric pieces, saving extra stitching work.
2. Quick mold change enables the machine to sew both thick and thin fabrics.
3. The 326 pattern head produces tidy stitches after installing the presser foot.
4. Computerized servo & pneumatic drive ensures easy operation and stable performance.
5. It is applicable for automatic sewing of various styles of pocket flaps.
