

Automatic Template Sewing Machine TS-MA530

TS-MA530

Advantages

1. Equipped with a standard muffler, it ensures quieter operation in factory workshops.
2. Custom follow-up middle presser foot is suitable for all thin and thick fabrics.
3. Built-in RFID chip identification system can automatically recognize sewing templates.
4. Standard special large auxiliary presser foot effectively prevents fabric shifting during sewing.
5. Comes with a foot pedal controller for simpler and more convenient operation.
