TOPSEW

Automatic Thread Cutting & Trimming Roller Sewing Machine TS-1587

TS-1587

Advantages

1.It adopts AC servo motor direct-drive to provide stable sewing power.
2.It features upper-lower differential feeding suitable for various fabrics.
3.It supports simultaneous sewing and trimming to realize one-step processing.
4.It delivers continuous reinforcing stitches to enhance seam strength.
5.It performs curve-following trimming to maintain consistent edge margin.
6.It combines patented left-axis design and three-stepping-motor feeding for free turning, easy operation and precise material delivery.

Product Specifications:

Speed	2700
Machine needle	DP × 5
Maximum stitch length	≥6mm
Presser foot lifting height	≥8mm
