

Automatic Buttonholes Indexer TS-205

TS-205

Advantages

1. Suitable for both men and women's shirts.
2. The buttonholes's distance and quantity are adjustable in the control system.
3. Laser positioning function to ensure accurate position for each buttonhole.
4. Finish all the holing jobs automatically. It can decrease the reliance of skilled operator and improve the sewing quality.
5. Bobbin thread consumption detect function. It can help to reduce the loose caused by bobbin thread use up, which is difficult to find.
6. Auto fabric feeding and auto stacking functions can greatly cut down workload, so one operator can run 2-3 machines at the same time.

Specifications
