

Automatic Laser Pocket Welting Machine TS-995-A

TS-995-A

Advantages

- 1, China's first, the world's first, the most advanced pocket welting machine in the world.
- 2, The length and width of the pocket can be switched automatically.
For different pocket sizes, no need to replace any parts and no need to adjust any parts.
- 3, The time to switch molds only need 10 seconds, which significantly improves production efficiency.
- 4, High efficiency: 120-150pcs pockets per hour.
- 5, The machine is suitable for 95% of the fabrics and pocket shape in the market.

Specifications

Model	TS-995-A (adjust mold automatically)
Head sewing speed	3000RPM
Equipped with head	Pattern machine 3020 (optional JUKI, BROTHER)
Laser power	120W
Size of pocket	Length 130-210mm, width 10-40mm
Feeding Drive Mode	Taiwan DELTA servo motor drive (750w)
Pneumatic element	AirTAC
Output power	3000W
