

Direct drive 3 needle chain stitch feed of the arm TS-8361-HP

TS-8361-HP

Advantages

1. Direct-drive 3-needle chainstitch machine, works reliably on thick fabrics like jeans and workwear.
2. 4300 RPM speed with auto-refueling, boosting productivity by 39% over standard machines.
3. Equipped with pneumatic presser foot, puller lift, and auto suction thread trimmer.
4. Fast feeding and perfect alignment, so no manual fabric pulling is needed during sewing.
5. Low noise, low vibration, and stable performance even during long production runs.
6. Wheeled steel stand for easy movement, with multiple optional needle gauges available.
7. Versatile for various seams, and can use a light fabric kit to handle thinner materials.

Specifications

Model	TS-8361-HP
Max Sewing Speed	4300PRM
Stitching Length	0.9-4.5mm
Thread cutting	Automatic
Presser	Length 130-210mm, width 10-40mm
Needle cooling device	Standard
Matrix cooling device	Standard
Motor	750W
