

Double needle sewing machine for attaching tape TS-8020

TS-8020

Advantages

1. Specially built for front pocket tape hemming, ensuring precise sewing on denim and similar fabrics.
2. Features sensor-controlled automatic front and finish cutting to eliminate manual trimming.
3. The double-needle design provides strong, neat stitching for durable pocket tape finishes.
4. Reaches a high sewing speed of up to 3000 rpm to boost production efficiency.
5. Supports flexible stitch adjustments to adapt to different fabric thicknesses.
6. Uses direct drive motor for stable, quiet operation and low maintenance needs.
7. Simple and convenient operation helps workers handle tasks quickly and easily.

Product Specifications:
