

Velcro Attaching Machine Integrated Hook And Loop TS-2210-VC-D

TS-2210-VC-D

Advantages

- 1, High efficiency: This velcro attaching machine can attach 15pcs velcro per minute.
- 2, The hooks and loops of the Velcro can be switched and sewn together simultaneously on one machine.
- 3, The conversion speed between hook and loop is fast, and it can perform continuous hook-and-loop feeding.
- 4, By changing the cutting die, it can achieve right-angle, round-corner, and special-shaped angle cutting and feeding.

Product Specifications:

Sewing Range	150mm*50mm
Feeding Length	Circular knife:20-150mm, Straight knife:15-150mm
Feeding Width	10-50mm
Knife Mold	Right angle, Round angle, Irregular angle, etc.
