TOPSEW

X-ray Inspection Machine TS-C6055

TS-C6055

Advantages

1.500×400mm detection zone, high sensitivity for tiny metal, glass and ceramic foreign bodies.
2.350W X-ray source with adjustable voltage and current for multi-scene inspection.
3.Radiation ≤1μSv/h, safety door interlock and official radiation safety license.
4.Closed air cooling system, IP65 cabin and washable lower screen area.
5.21.5-inch touch screen with 100+ product recipes, image save and data statistics.
6.Auto alarm and automatic rejection for defective products with foreign matter.
7.Stable AC220V operation at 0-40°C and 30-90% non-condensing humidity.

Product Specifications:

X-ray Power:	350 W light source
X-ray Emission	1μSv/h or less
Conveyor Speed	Adjustable from 10 to 70 m/min
Max Conveying Weight:	20 kg
